AGENDA INTRO

The world's largest project controls event, with a presence in the United States, United Kingdom, Brazil & UAE, and Australia, also rapidly expanding to other parts of the globe, is built on three pillars: **education, networking, and commercial opportunities.**

Project Controls Expo (PCE) provides a unique forum for learning as well as the opportunity for the exchange of ideas across industries through its **8 educational seminar streams** based on industry-related topics, as well as the opportunity

for delegates to examine the most recent products and services as solutions to their pain points in the partner showcase accompanying the presence of major corporations in the industry.

There are numerous networking opportunities to round out the Expo experience, ranging from the popular pitching and batting experience to evening drinks & dinner functions within the Stadium, creating a genuine and unparalleled sense of community event across all two days of PCE AUS.
