

Knowing when to hold and when to fold

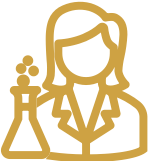

The role of project controls in complexity

Getting to Know One Another

Start Ups

Research

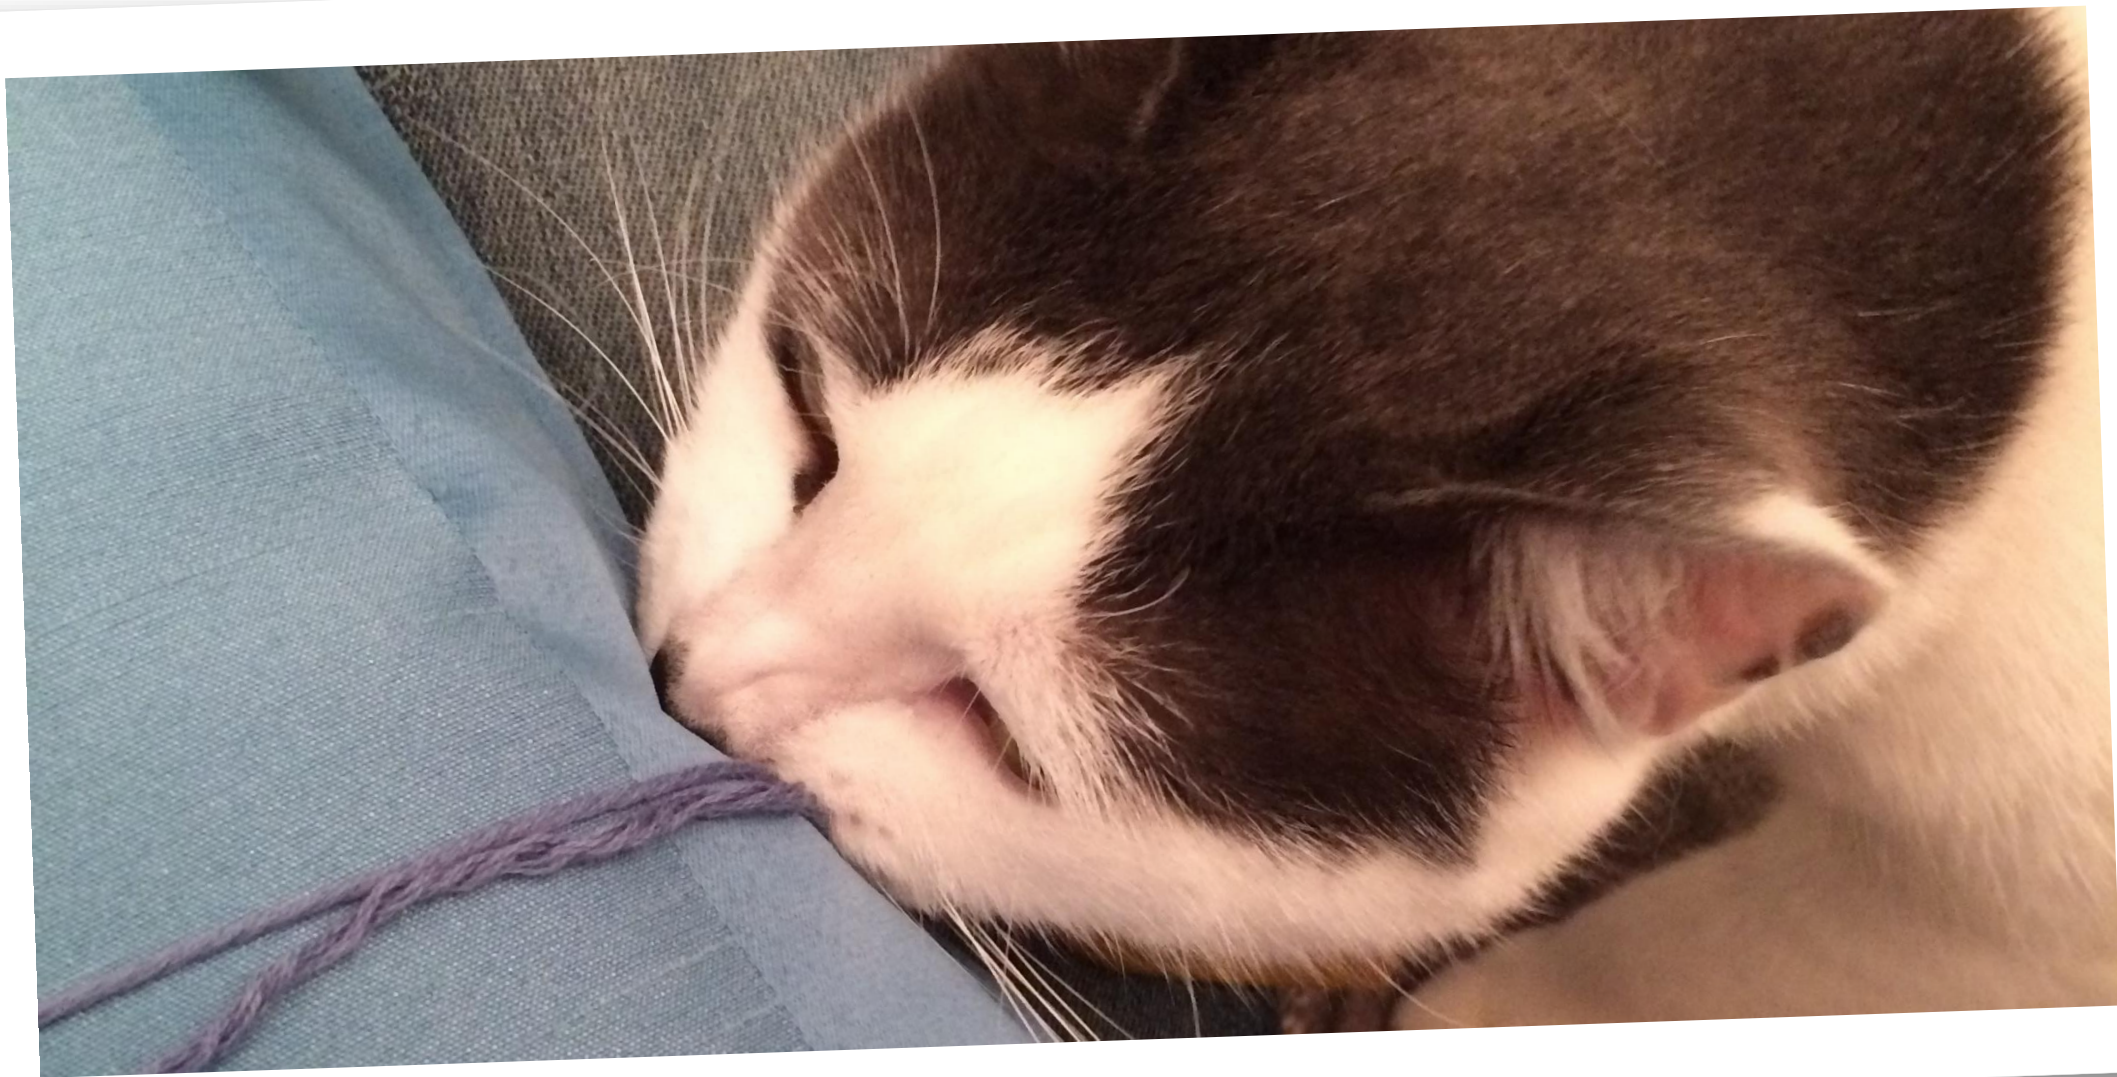

Corporate

Boards

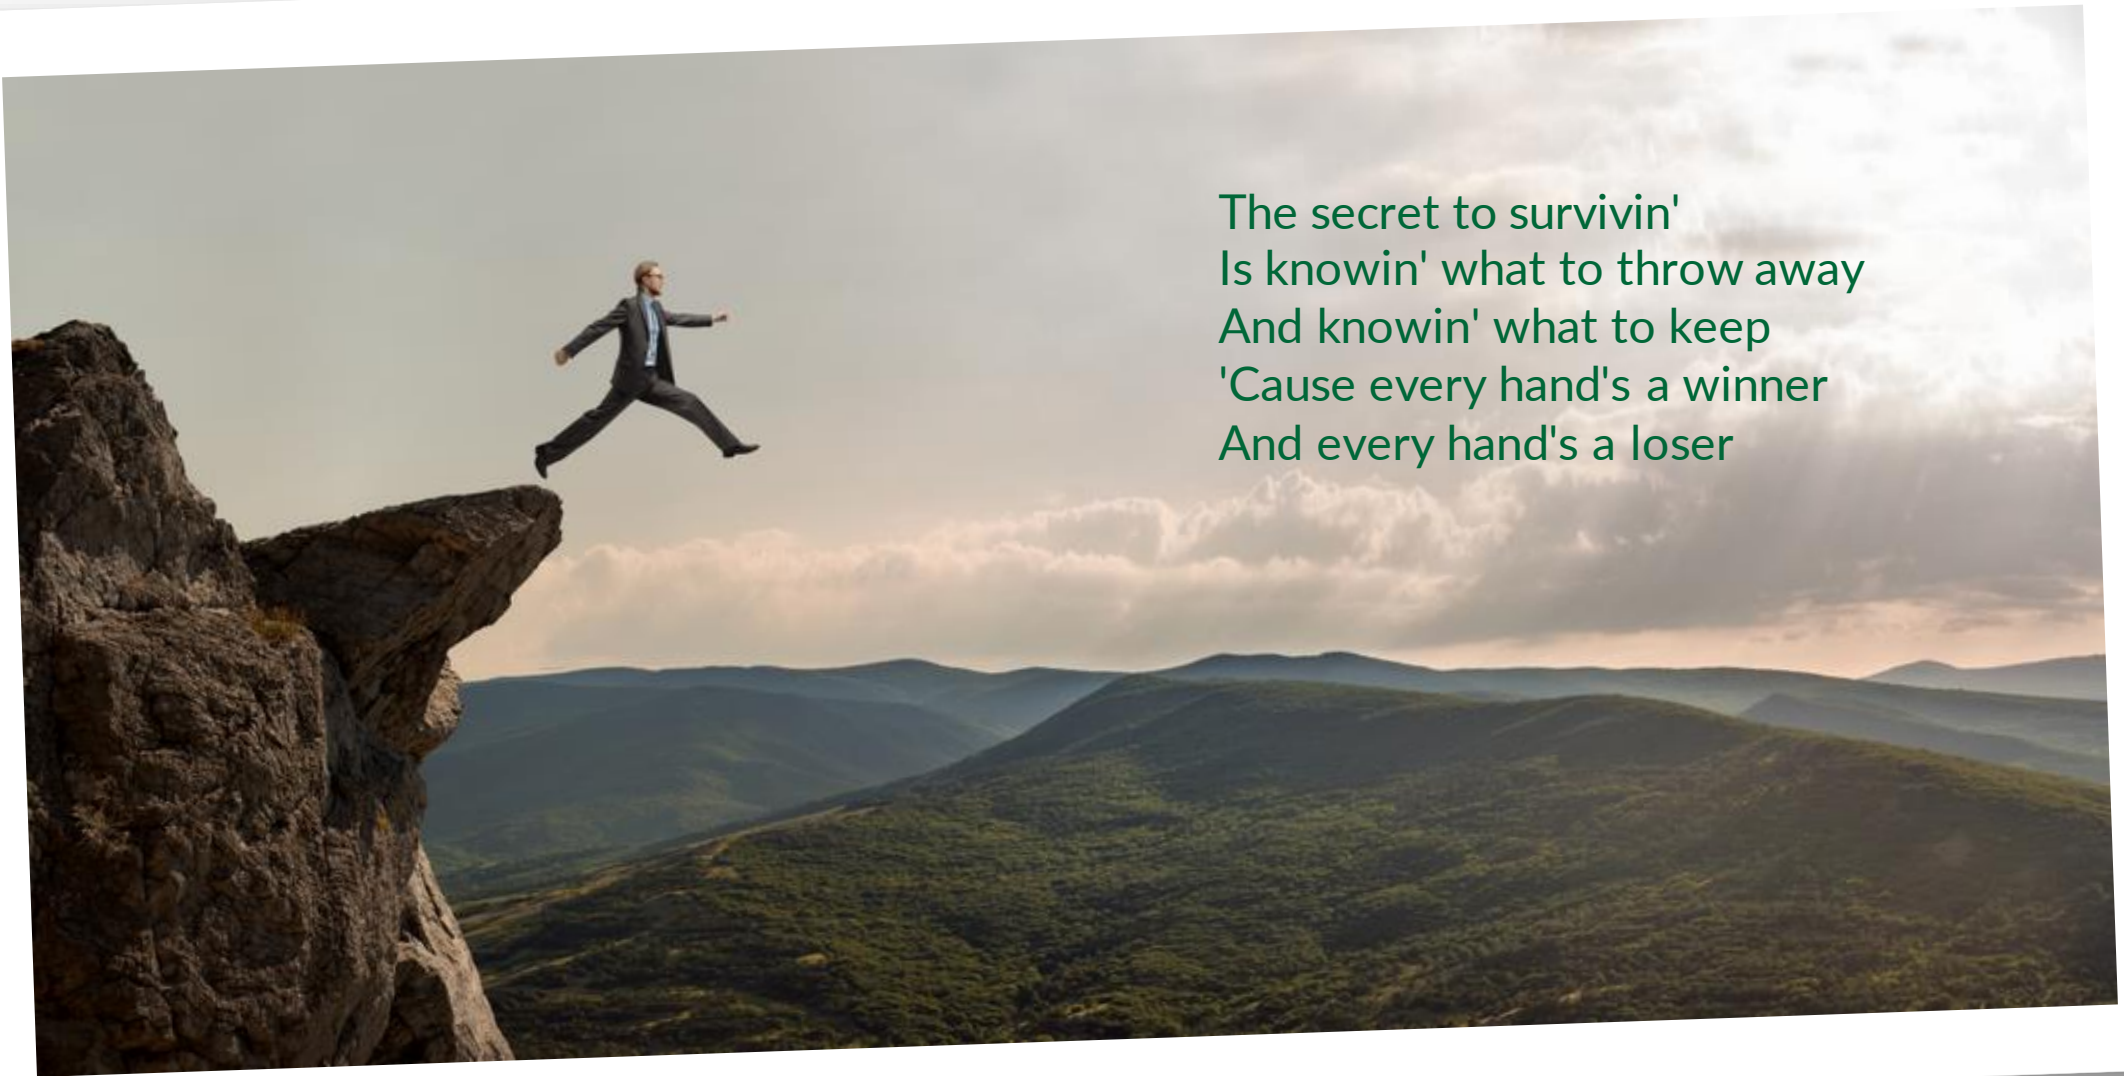

I've made a life
Out of readin' people's faces
Knowin' what the cards were
By the way they held their eyes
So if you don't mind me sayin'
I can see you're out of aces

"If you're gonna play the game, boy
You gotta learn to play it right

The secret to survivin'
Is knowin' what to throw away
And knowin' what to keep
'Cause every hand's a winner
And every hand's a loser

The gambler he broke even
But in his final words
I found an ace that I could keep

Summary

1. You've got to know when to hold 'em
2. Know when to fold 'em
3. Know when to walk away
4. And know when to run
5. You never count your money, when you're sittin' at the table

There'll be time enough for that when the project is done

THANK YOU
