

Project Controls

E X P O

Washington, DC - USA

4 - 6 October 2022

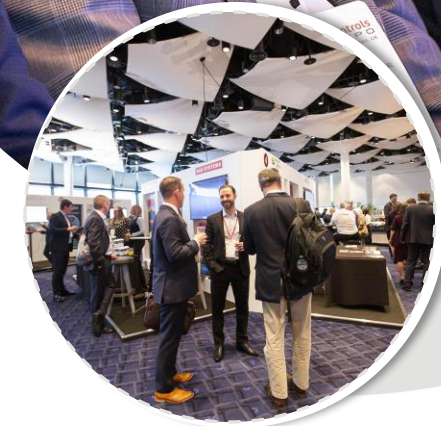

INTRODUCTION

Nationals Park,
Washington DC

“Project Controls
EXPO
is a celebration of
project controls,”

‘**The World's largest project controls** event dedicated to the advancement of Project Controls, with the objective of providing significant awareness on the process, tools, and techniques available to its stakeholders. It highlights the value of Project Controls and the impact it can have when put to use effectively’.

Problem Statement

A report by McKinsey states 98% of megaprojects face cost/schedule overruns or delays. The reasons include flawed performance management, insufficient risk management, missed connections (lack of planning) amongst a few others which lead to:

- loss of control on projects
- missed deadlines
- delayed phased completions
- incurring penalties
- incurring payment delays
- erosion of stakeholders' trust and finally, with public projects, poor justification of taxpayer's money

Another report by PWC, suggests that worldwide infrastructure spending will grow from \$4 trillion per year in 2012 to more than \$9 trillion per year by 2025. Overall, close to \$78 trillion is expected to be spent globally between 2014 and 2025.

This calls for more enhanced dialogue between government, industry and professional bodies **to come together for sharing lessons learnt, best practices and engage more collaboratively** for successful project delivery.

Project Controls Expo, started in 2010, offers this **platform where a wide range of industry players** (Oil & Gas, Aerospace, Pharmaceutical, Infrastructure, Construction, Government, Defense, etc.) and professional bodies (APM, ACostE, ICEC, AIPM, PMI, AIQS etc.) **engage with a range of professionals and technology providers for the development/advancement of the profession.**

Who Attends

- Project Controls Engineers
- Cost Estimators & Engineers
- Planners & Schedulers
- Planning Engineers
- Tendering Managers
- Project Leaders / Directors / Managers
- Program Directors / Managers
- Project Managers
- BIM Professionals
- Risk Engineers / Managers
- Delay Claims Analysts
- Project Engineers
- Project Development Engineers

Testimonials

“ The Project Controls EXPO, was again of a very high standard, which we are now accustomed to. International Cost Engineering Council (ICEC) committee was also pleased to attend the event and I am sure that this will result in more International co-operation in Project Controls. Thank you very much for all your efforts in promoting our Project Controls profession.”

Alec Ray
ACostE

“ It was a great honor to have participated in this important event, I was able to meet so many excellent Project Controls professionals from different countries and I also attended many important conferences to continue growing as a professional. Project Controls Expo UK 2019, the largest international event in the Project Controls industry.”

Franco Ríos
SAXUM
Engineering
Solutions

“ This is easily the best project controls event of the year and provides a fantastic opportunity to network with your peers and build relationships. The presenters were excellent and demonstrated their detailed knowledge. Personally, the best thing about the event was the app - being able to have all the info you need just on your phone made the day so much easier to dip in and out of presentations and plan to get the most out of the day. I'm already looking forward to next year's event!”

Project Controls Expo in Washington DC

Starting in October 2022, the Project Controls Expo will be held in Washington DC. We've been motivated to serve the North American Project Controls communities after the success of our annual events in London and Melbourne. We modified the event with some additional aspects to satisfy the local cultural requirements, with the fundamental theme in accordance with the UK and Australia models.

The Project Controls Expo in Washington, DC, will serve as a North American regional conference, with attendees expected from all surrounding countries. There are significant infrastructure projects underway in this region, and we can provide Expo delegates with a terrific networking and learning atmosphere. We have already received pledges from international speakers and organizations to participate in this exciting event in 2022."

"Expo is a celebration of Project Controls," explains the summary. It will emphasize the importance of project controls and the impact they may have when used properly.

- Up to 30 PDUs/CEUs
- Access to all the future webinars
- Opportunity to meet with global industry experts
- Networking with like-minded project controls peers
- Meet industry leaders to discover the latest technology
- Find out the latest advancement via master class sessions and workshops
- Plan your future career by exploring project controls opportunities with employees

DAY - 1

4 October

10:00 AM - 03:00 PM

Sponsored Activity Day for Expo Delegates

Speed pitching in the Nationals
Bullpen

(practice in the same space
professional pitchers use to warm up)

Batting practice inside the
Nationals batting cages

(no matter what level of experience)

DAY - 2

5 October

07:30 AM - 05:35 PM

Free Partner Showcase

4 Workshops including

Overview of Construction Claims &
Disputes

+

Alternative Dispute Resolution - Your
Key To Staying Out of Court

Schedule Risk Analysis

Artificial Intelligence

Earned Value Management

2 Seminar Streams

Case Studies

Technology

Panel Discussion

& Audience Q&A

Evening

05:45 PM - 07:30 PM

Evening Social & Networking

DAY - 3

6 October

07:30 AM - 05:35 PM

Free Partner Showcase

4 Seminar Streams

Masterclass

Case studies

Innovation

Megaproject

Panel Discussion

& Audience Q&A

Evening

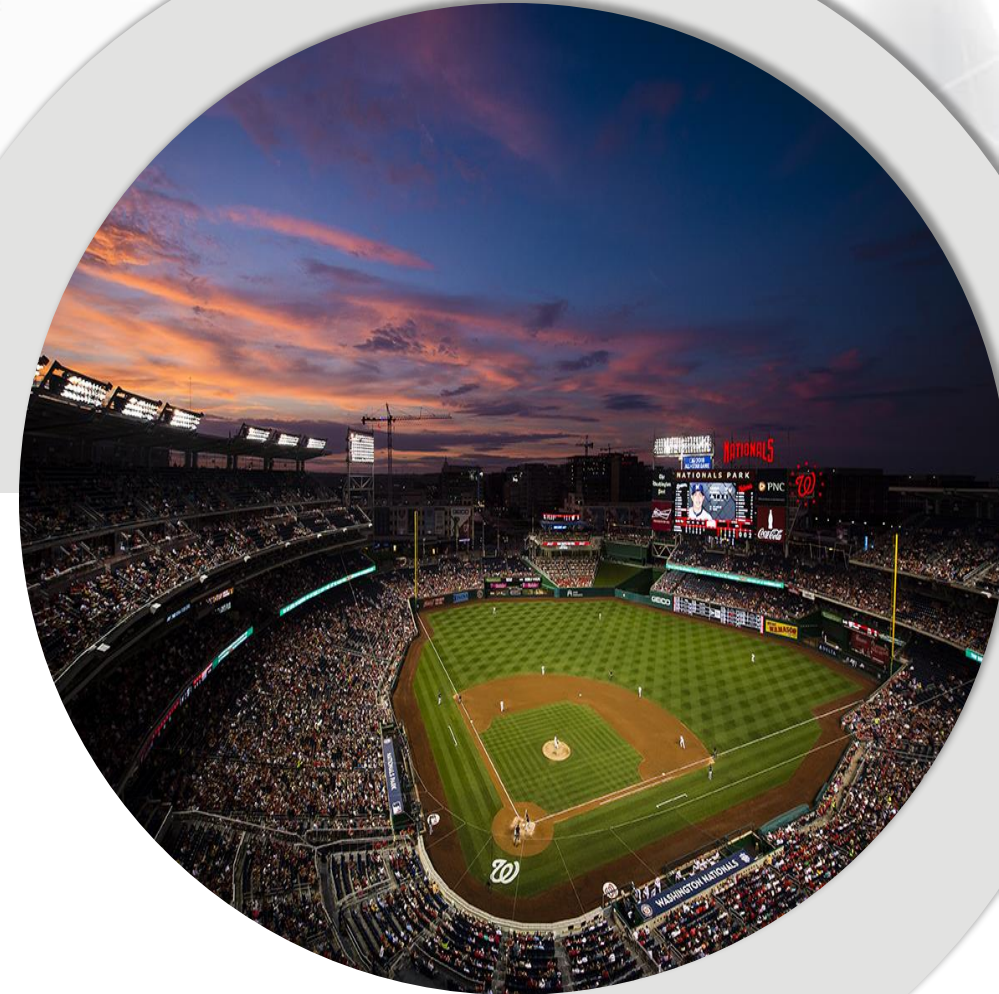

05:45 PM - 07:30 PM

Evening Social & Networking

Ball Park Tour

Ball Park Tour – Nationals Park

- The Shirley Povich Media Area
- FIS Champions Club
