Sterling

Driving Net Zero Construction

Your Technology & Support Services Partner

Enabling Smarter, Faster & Greener Construction

Sterling is a next generation, cloud-based, BIM ready, estimating and forecasting solution designed to help carbon conscious professionals design, plan, execute, become PAS 2080 compliant, and operate more sustainably in the built environment market.

What Makes Us Different?

- Purpose Built = No Legacy Issues, poor bolt-on's or limitations
- Online Platform = Rapid deployment, easy maintenance/upgrades
- Cost & Carbon = Estimates co-exist = Full alignment & control
- Secure = Developed for security minded project teams
- Easy to Use = We are proud of our fresh look & user centric approach
- Easy to Engage = From PAYG to Enterprise deals, we have flexible options

Kenmore House, Navigation Road, Chelmsford, CM2 6HX, United Kingdom
