

# DELIVERING PROVEN PROJECT CERTAINTY FOR OVER 30 YEARS

## WE HAVE ONE JOB

To help our customers realize the “**best path of construction**” by building and integrating **technology solutions** that span the life of a structure; providing the **data and insights** to better predict cost, build time and lifespan.

### COMMITTED TO INNOVATION

We are making significant investments in research & development with hundreds of software developers around the world working hand in hand with industry professionals.

### DRIVING PREDICTABLE PROJECT OUTCOMES

At their core, our solutions are designed to make sure project stakeholders have the information they need when and where they need it...to avoid surprises and make informed decisions.

### CORE VALUES

We are passionate about the future of work in the construction industry —improving outcomes, predictability, and safety.

Our core values—integrity, respect, passion, innovation and accountability—are how we bring that future to life.

# ACROSS INDUSTRIES

## KEY INDUSTRIES

Infrastructure

Public Sector

Energy & Power

Oil

Gas & Chemical

Mining & Resources

Commercial

“Gearig started this journey looking for a software solution and quickly changed our thinking. Instead of picking software, we picked a business partner who was innovative, evolving and growing. Our advice, don’t look at where software companies are today. Rather, compare where these companies were 5 years ago, evaluate where they will be in 5 years and then pick the best partner.”

Mark Johnson, Gearig Civilworks

“Because we are global, we didn't want to have document storage spread all over the world. It was critical to have a solution that would support our teams and their needs, such as handling transmittals and drawings.”

Chris Cawood, OceanaGold

“Great customer service as usual. Out of our technology providers InEight has the absolute best customer service.”

Brady Hanson, DL&PS Energy Services

# HELPING COMPANIES IMPLEMENT **INDUSTRY BEST PRACTICES**

**InEight is built for construction, by construction professionals, and deployed by construction experts.**

## **RIGHT TEAM**

InEight has a team of consultants with deep knowledge of:

- Construction Processes
- Project Management
- Integration

## **METHODOLOGY**

InEight has a proven methodology with tools and templates and change management expertise to keep the project on track

## **ACCOUNTABILITY**

Services delivered by InEight ensuring clients have one company to hold accountable for implementation, software, hosting, support and overall service

## **TOOLS**

InEight has tools to speed the implementation:

- Design Templates
- Configuration Guides
- Training Courses
- Change Management support
