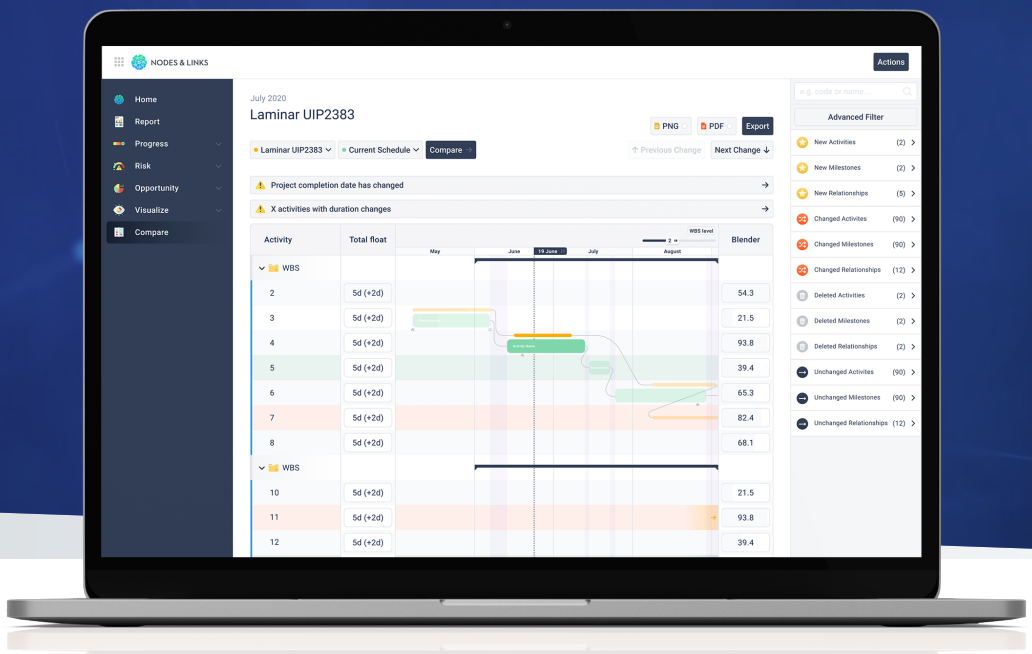
NODES & LINKS
complexity made simple

Meet Aegis™

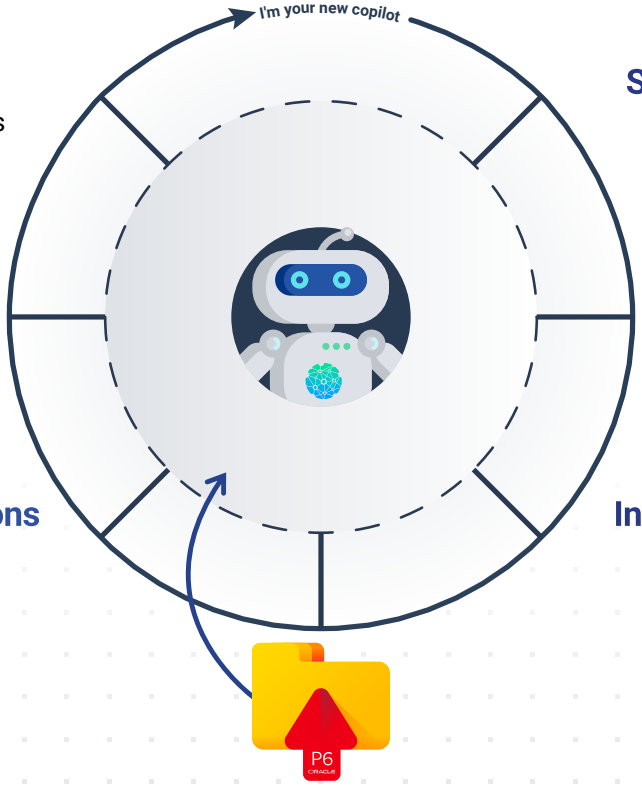
Your project copilot™ 👨‍✈️



Nodes & Links uses **cloud-tech** and **AI** to enable engineering projects to be delivered on time, on budget and at less cost.

Integrated workflows
No need for interwoven workflows with multiple products

Smart AI and automation
So that planners can spend time where they should



Real answers to real questions
Save time, decrease risk and promote communication

Intuitive, fast and easy to use
Forget clunky, info-heavy Win-95 style apps

Scan the QR-code or visit **nodeslinks.com** to learn more.

Windows 95 and Oracle Primavera P6 are properties of Microsoft and Oracle respectively.

NODES & LINKS
complexity made simple

We consistently deliver major value to our partners

Partner		Estimated Lifetime Savings*	Benefits
HS2	High Spreed Two **$145Bn** Rail Project	**$291 Mn**	**245%** Increase in risk precision **61%** Reduction in process time **73%** Savings in work hours **57%** Increase in risk audibility
bam	BAM Nuttall **$4Bn** Rail Project	**$16 Mn**	**41** workdays time savings per month **25%** Workload reduction **6x** ROI on purchase
A14	A14 Highway **$2.2Bn** Road Project	**$1.3 Mn**	**92%** Savings in work hours (set-up) **98%** Savings in work hours (operational)

*Savings based on a single project

What are users saying about Aegis?

Our users entrust us with their money, their businesses, and their livelihoods. Millions of businesses around the world (individuals, startups, and large enterprises) are open for business only if we are. When we mess up, miss a deadline, or slow down, it matters. We take that responsibility seriously.

Like for like, 2 hours of work becomes 2 minutes. As a by-product we are able to produce insights we never would have been able to.

Adrian Millsted
Senior Planning Engineer at Costain Group PLC

I went from looking at critical paths on a manual basis to full automation. Nodes & Links instantly gives me the top 5 paths, enabling far more intelligent what ifs.

Bob Hide
Planning Director
BBV

I think the technology will be invaluable and add so much to the project controls. It's the best tool I've seen in a long time as a planner and I think you'll be as excited as me about it when you see it.

Phil Powell
Digital Integration Manager
