extima x projects

**Company specialized in Cost Engineering
providing technical services and consulting.**

Extima Projects

Experience of over 15 years in developing and analyzing cost estimates ensuring accuracy, traceability and agility.

Mission

Ensure accurate cost estimates, excellence and value creation; in order to guarantee the reliability of the economic and financial results of the projects.

About Us

Area of Performance

Infrastructure projects, construction and raising of dams, plants - green and brownfield, underground and open pit mines, among others.

Excellence Deliverables

- Taxes and Economic-financial analysis
- Preparation of relevant chapters to our scope for technical reports NI-43-101 and JORC;
- CAPEX & OPEX elaboration in the various phases of project development;
- CAPEX update during detailed engineering;
- Risk analysis and contingency calcs;
- Peer-review of cost estimates prepared by third parties (Eg. cross-checks, M&A).
