

Developing your vision, Delivering your promise

Business Overview

D2 are an independent and growing, professional services provider. Over the past decade we have developed a comprehensive suite of program management capabilities based on our project delivery experience. We combine this industry expertise, with innovative thinking and digital products, to develop close relationships with our delivery partners and clients.

Through our talented project specialists, we have built a sound reputation for delivering our commitments, including several of the largest infrastructure projects across the UK and Canada.

Our Service Model

We operate across the entire project lifecycle, from inception through feasibility, optioneering, design, delivery and into handover, maintenance and operations. We are experienced in providing the full suite of Program Management solutions to establish deliverable projects enabled by effective teams.
