# EXPO USA HEADLINE PARTNER

For major construction or engineering projects, delays have significant implications. Every month a project is delayed in starting—and each month added to the schedule—increases cost and risk. How can you break ground sooner, control cost and reduce project overspending?

ARES PRISM is the enterprise project controls software that's faster to deliver value and accuracy across the entire project lifecycle, from deployment through realization of vision. ARES PRISM's intuitive, easy to configure software is project-ready right out-of-the-box delivering dependable forecasts, visibility and control, and improved performance measurement. A quarter-century of best practices, customer input and industry expertise is built into the software, enabling ARES PRISM customers to drive project performance. Organizations around the world rely on ARES PRISM to manage projects, programs and portfolios of growing size and complexity in a variety of industries; including infrastructure, engineering & construction, oil & gas, mining, utilities and aerospace.

## Optimize Project Spend & Performance with Cost Management -

- ▶ Cost Tracking:effectively control cost and simplify month-end progress reporting
- ▶ Project Schedule Integration:easily integrate cost data with P6 or MS project
- ▶ Time-Phased Budgets:establish time-phased budgets to represent cash flow plans for projects
- ▶ Earned Value Management: meet government requirements and find variances in projects
- ▶ based upon the comparison of worked performed and work planned
- ▶ Reporting:easily use enterprise reporting for enterprise cash flow analysis

## Account for Change & Maximize Efficiency with Change Manage-

- ▶ Trends:manage trends, potential changes, and change orders
- ▶ Workflow Management:review and approve using workflows and authority levels

- ▶ Certified Audit Trail:audit for tracking cost and schedule changes to the project's baseline and forecast
- ▶ Transparency:foster better project control via transparency, increased awareness, better decision-making, time saved and improved compliance.

## Improve Visibility to Make Informed Decisions with Reports and Dashboards

- ▶ Real-time Executive Dashboards:report, analyze and make better decisions using real-time project data
- ▶ Structured Data Warehouse:easily review data across all projects and portfolios
- ▶ Pre-built and Custom Reports:show project insights, review actionable items for performance improvement, increase productivity within project controls teams

## Manage Contracts & Contractor Activity with Contract Management

- ▶ Contract Workflow Design:set up standardized electronic workflow processes to substantially reduce turn-around times
- ▶ RFP Management:effectively manage the entire RFP process
- ▶ Bid Analysis:record contract bids, perform analysis, and award contracts
- ▶ Contractor Portal:enable third party contractors and vendors to update project progress in a secure environment

# ARES PRISM

is

Faster to Deliver

Realize value *faster*.

ARES PRISM Enterprise is the best-in-class software solution with **over 25 years of best practices and industry knowledge** built in, enabling customers to drive project performance throughout the entire project lifecycle.

With capital projects increasing in size and scope, we help owners and contractors adopt stringent project cost and earned value management processes for **increased project transparency**.

# EXPO USA PLATINUM PARTNER

## Your world of enterprise projects, in focus

### Radically reduce costs and significantly increase revenue

Cora provides the power of predictability to plan and manage long-term projects, guaranteeing their successful delivery.

Cora is trusted by leading organizations such as Honeywell, Automated Logic, Boston Scientific and PwC with thousands of users in over 50 countries.

Our enterprise project and portfolio management solutions connect complex ecosystems, streamline processes and centralize data, providing the complete control, governance and insight required to track performance and protect margins, effortlessly.

Everything you do and make gets delivered on time and on budget, thanks to our seamless solution that manages the end-to-end lifecycle from bid to delivery, optimizing revenue and margins across project execution, through integration of schedules, forecasting, resourcing and financial controls.

### Centralize your project data

Get immediate visibility into everything, wherever you are. It's all there on your dashboard.

### Standardize processes

Integrate your business processes into a single, streamlined system, so all your data and documents are kept permanently up to date.

### Eliminate any deviation

Get rid of those gaps between planned and actual costs and delivery, so you can be confident of continually maximizing your margins.

### Configured for and by you

Highly flexible due to its no/low code configurability, easily adapting to your business needs.

### Sync your supply chain

We make you the 'control tower', collecting and orchestrating the data that all your materials, resources, and assets generate.

**cora**

With over four decades' experience – from construction and manufacturing to processes and technology – HKA is a leading global consultancy, providing seamless access to advisory, consulting and expert services.

HKA Tech is our technology group that focuses on delivery of the PMWeb software solution for management of capital works projects throughout their lifecycle – from concept, through planning, construction, to long-term asset management. HKA Tech is the largest authorized and implementing reseller of PMWeb globally and has implemented over 200 organizations. Clients in the USA include City of San Diego, Placer County (CA), Los Angeles County Development Authority, Dormitory Authority of the State of New York (DASNY), City of Bend, State of Connecticut, Colorado Department of Transportation, Ramsey County, San Diego Airport, Tucson Airport, Omaha Airport, Port of Los Angeles, Brightline (Florida), Orange County Sanitation District, Sacramento County Wastewater, UC Santa Barbara, Washington University of St. Louis, Arizona State University, University of Washington, and many others.

HKA Tech is also an authorized implementing partner and reseller for WalkMe. WalkMe pioneered the Digital Adoption Platform and HKA Tech has been configuring WalkMe solutions for PMWeb clients for over three years - developing efficient and effective interactive step by step online guides (aka "walkthrus") for PMWeb users. Clients for which HKA has implemented WalkMe on PMWeb include the Colorado Department of Transportation (CDOT), City of Spokane, City of Tempe, Ramsey County, JP Morgan Chase, Blattner Energy, the Dormitory Authority of the State of New York (DASNY), and others. learn beforehand how

In addition to implementing WalkMe on PMWeb, HKA has configured WalkMe for a range of other software applications, including Salesforce, Oracle, SAP Ariba and multiple "homegrown" CRM and HRM web based applications. In each case, WalkMe's powerful features have increased the speed of digital adoption within the client organization; and reduced the costs of both training and other implementation and organizational change management activities.

walkme + PMWeb®

*A perfect pairing.*

- Simplify Training
- Increase User Adoption
- Enhance OCM
- Improve Data Integrity

HK>A

Digital Adoption  
Platform (DAP).*

# EXPO USA PLATINUM PARTNER

**ORACLE**  
Construction and  
Engineering

Oracle Smart Construction Platform combines industry-trusted applications with a common data environment and an ecosystem of partners to help owners and delivery teams work together and continuously improve outcomes. With applications to maintain schedules, streamline cost and contract controls, collaboration, process automation, and 3D/BIM, the platform helps synchronize activities and resources while connecting teams and empowering individuals with predictive insights to make well-informed, proactive decisions.

As the only project management cloud provider with both FedRAMP and DISA authorizations for high-compliance security, Oracle Smart Construction Platform gives you the tools to outperform expectations while keeping your project data safe.

**ORACLE**  
Construction and  
Engineering

## Don't just manage, orchestrate

Success depends on your ability to see the big picture, while maintaining control over the details. Oracle Smart Construction Platform helps you anticipate change before it happens and act with confidence when it inevitably does.

# EXPO USA PLATINUM PARTNER

Powerful and easy to use, PMWeb is an all-in-one portfolio, program and project management construction software solution geared toward enterprise-level organizations across multiple industry verticals.

“We chose PMWeb because it was the only solution we found that was specifically created for construction. It has a broad range of unique features with a user-friendly interface and powerful reporting capabilities. PMWeb has greatly increased the efficiency and transparency across our capital development program.”

**MEGAN WORBS | Business Manager,  
Campus Design and Facility Development  
at Carnegie Mellon University**

The advertisement features a background image of a meeting with people looking at a laptop and a tablet. Overlaid on this is the PMWeb logo and the headline 'The PMIS Chosen By Top Organizations'. Below the headline is the text 'PMWeb Construction Project Management Software'. The bottom half of the ad displays a grid of logos for various organizations that use PMWeb, including the United Nations, The City of San Diego, Colorado Department of Transportation, Harvard University, Johns Hopkins School of Medicine, Brookfield, ATL Hartsfield-Jackson Atlanta International Airport, The Port of Los Angeles, and Alaska Airlines. At the bottom, a blue bar contains contact information: PMWeb.com, sales@pmweb.com, and 617-207-7080.
