Agenda Snapshot

Tuesday, 15th November 2022 | Day 1

Time/Venue	Track 1 @ The Arc 1 Case Studies Zone (Day 1)	Track 2 @ Wembley Suite Masterclass Zone	Track 3 @ The Atrium Technology Zone	Track 4 @ The Arc 2 Workshop Zone
07:30 - 08:15	Registration @ The Main Entrance			
08:15 - 08:20	Introduction by Anil Godhwale (PCE) @ Wembley Suite			
08:20 - 08:25	Welcome & Opening Remarks Dr Tim Sheldon (MoD) @ Wembley Suite			
08:25 - 08:45	Keynote by Nick Smallwood (Infrastructure and Projects Authority) @ Wembley Suite			
08:45 - 08:50	Headline Partner Remarks by John Baker (Oracle) @ Wembley Suite			
09:00 - 09:40	Session C1: Data Analytics Transformation Speaker: Chris Sanders & Roger Hunter (BAE Systems)	Session M1: From Task Force to Data Trusts. The latest developments in the world of project data analytics and what it means for project controls. Speaker: Martin Paver (Projecting Success) & Andy Murray (Major Projects Association)	Session T1: How Construction Tech adds to effective decision making Speaker: Geoff Roberts (Oracle Construction and Engineering)	Session W1.1: Data Analytics with Power BI for Project Controls Speaker: Jeancarlo Duran Maica (BAM Nuttall Ltd)
09:45 - 10:25	Session C2: Method to avoid false performance and cost data for at risk work before formal contract change. Speaker: Russell Berkeley (Gleeds Limited) & Danny Alexander (Gleeds Energy Limited)	Session M2: Current and Future State Educational Pathways (Project Control and Project Management) Speaker: Patrick Tucker (London Metropolitan College)	Session T2: Taking the leap: The evolution of a project controls implementation Speaker: Iain Graham (Planisware) & Anthony Allen (TPG)	
10:30 - 11:00	Mid-Morning Coffee Break @ Great Hall			
11:05 - 11:45	Session C3: Integrated, expandable, flexible and connectable: deploying Oracle's Primavera Unifier to deliver a fully integrated project controls solution at Dublin Airport Authority Speaker: Nathan Lambert (RPCuk) & Mark O'Brien (DAA)	Session M3: The New Currency of Project Controls: Cost & Carbon Estimating & Governance on Capital Projects Speaker: Andrew Langridge (ARES PRISM)	Session T3: Project Controls in a Data-Driven World Speaker: Stefan Bakker (Cleopatra Enterprise)	Session W1.1: Data Analytics with Power BI for Project Controls Speaker: Jeancarlo Duran Maica (BAM Nuttall Ltd)
11:50 - 12:30	Session C4: Transforming and enabling sustainable infrastructure solutions through the application of project control excellence Speaker: Leanne Coleman & Mark Dawson (Costain)	Session M4: Risk based controls Speaker: Hamza Mirza (Petroleum Development Oman)	Session T4: ICSRA 2.0 - Integrated Cost and Schedule Risk Analysis. Evolved Speaker: Doug Oldfield (Ferryfield Group/Safran)	
11:55 - 12:30	Lunch Break - Standing Lunch Area @ Great Hall (for Partners ONLY)		12:30 - 14:00 Lunch Break - Standing Lunch Area @ Great Hall (for Delegates ONLY)	
14:05 - 14:45	Session C5: Understanding a Quantitative Risk Analysis (QRA) Speaker: Simon White (Trigo White Ltd)	Session M5: Doing More with Less: How to Address the Capital Project Productivity Imperative Speaker: John Fitzsimmons & Rhys Tanner (FlowLedger)	Session T5: Demonstrating Project Controls Relevance to Executives: Quantifying the Business Impact of Speed and Accuracy Speaker: Kurt Kauper & Simon Johnson (ARES PRISM)	Session W1.2: What's the point of Net Zero targets for your business and should you bother? Speaker: Ruchi Singh (JLL) & Carol Deveney (See Change International Consulting Ltd)
14:50 - 15:30	Session C6: How to win hearts and minds so Cost/Schedule Risk Analysis delivers results Speaker: Mark Franklin (Safran Software Solutions) & Chris Britton (OMV Exploration & Production)	Session M6: An extended 'Project Controls' capability to deliver portfolio optimisation and achievement of strategic outcomes Speaker: John Steele (Adept Management Limited)	Session T6: National Highways and Deltek Working Together To Improve Project Schedules Speaker: Evan Filis (Deltek) & Manraj Singh (National Highways) & Marc Rozsa (National Highways)	
15:35 - 16:05	Afternoon Coffee Break @ Great Hall			
16:10 - 16:50	Session C7: Automated Programme and Portfolio Builds Speaker: Paul Taylor (Stantec)	Session M7: Nurturing project control talent, developing skills and gaining recognition Speaker: Catherine Lambert (ECITB)	Session T7: Cost & Schedule working together in EcoSys for a better Project Performance Speaker: Jean-Luc Ozoux (Hexagon)	Session W1.2: What's the point of Net Zero targets for your business and should you bother? Speaker: Ruchi Singh (Barnet & Enfield Mental Health NHS Trust) & Carol Deveney (See Change International Consulting Ltd)
18:00 - 19:00	Awards Drinks Reception @ Lioness Bar (For Dinner Delegates ONLY)			
19:00 - 22:00	Awards Black-Tie and Gala Dinner @ Bobby Moore			

Partner Showcase @ Great Hall

Agenda Snapshot

Wednesday, 16th November 2022 | Day 2

Time/ Venue	Track 5 @ Wembley Suite Smart Construction Zone	Track 6 @ The Arc 2 Case Studies Zone (Day 2)	Track 7 @ The Atrium Megaprojects Zone	Track 8 @ The Arc 1 Innovations Zone
07:30 - 08:15	Registration @ The Main Entrance			
08:15 - 08:20	Introduction by Anil Godhawale (PCE) @ Wembley Suite			
08:20 - 08:25	Welcome & Opening Remarks Adam Boddison (APM) @ Wembley Suite			
08:25 - 08:45	Keynote by Ministry of Defence @ Wembley Suite			
08:45 - 08:50	Headline Partner Remarks by Edward Boxall (Oracle) @ Wembley Suite			
09:00 - 09:40	Session S1: Evergreen Digital Twins from Design through Construction Execution to increase schedule and cost performance Speaker: Hugh Hofmeister & Ryan Posnikoff (Bentley Systems)	Session C8: National Highways Alliancing Business Information Framework Speaker: Marc Rozsa (National Highways) and Andrew Robinson & Jonathan Hewitt (Cohesive)	Session P1: Controlling "Agile" Speaker: Rob Yates & Susan Simpkin (BAE Systems)	Session I1: How Project Management Office (PMO) Employing Artificial Intelligence Technique in Project Planning utilizing Scheduling Tools Speaker: Muhammad Azri Ahmad Baharom & Mohd Shahrizan Abd Rahman (PETRONAS)
09:45 - 10:25	Session S2: Oracle Smart Construction Platform Speaker: Huw Cole (Oracle Construction and Engineering)	Session C9: Stratford Waterfront - 10 years on from London 2012 Speaker: Savan Patel & Monica Pesconi (Mace Group)	Session P2: How to get dashboards that you can trust enough to make million £ decisions Speaker: Stephen Herd & Will Needham (Laminar Projects)	Session I2: Reducing Risk and Enhancing Collaboration with Integrated EWN Processes Speaker: Jeff Quantrill & Jordan Cannon (InEight)
10:30 - 11:00	Mid-Morning Coffee Break @ Great Hall			
11:05 - 11:45	Session S3: Benefits and Method of Housing ALL Project Information in the Schedule Speaker: Steve Moore (Robins & Morton)	Session C10: Business Intelligence in Project controls: How to make dashboards and reports work better for you. Speaker: Jason Richards & Adam Kingsbury (LogiKal)	Session P3: Implementing Project Controls on Victoria's largest megaproject Speaker: Cameron Mills & Pauline McMahon (North East Link Program)	Session I3: Expediting Rate of Change in Project Controls Speaker: Lisa Silander & Kiran Mistry (Faithful + Gould)
11:50 - 12:30	Session S4: Construction Intelligence Reporting System Speaker: Omar Habib (WiiPlan Project Solutions), Ahmed AbouAlfa (DGDA) & David Egan (WiiPlan Project Solutions)	Session C11: Birmingham City Council gain control of their project pipeline through visualisation and reliable data solutions with CPS and the Microsoft PowerPlatform. Speaker: Sam Graber (CPS) and Kevin Cahill & Nicholas Smith (Birmingham City Council)	Session P4: Capturing the full performance potential of mega-projects - Refocus from Control to Performance Speaker: Guy Turner (Partners in Performance)	Session I4: Optimizing Strategic Delivery and Adaptability thru Effective Resource Planning Speaker: Lloyd Norman (Prosymmetry)
11:55 - 12:30	Lunch Break - Standing Lunch Area @ Great Hall (for Partners ONLY)		12:30 - 02:00 Lunch Break - Standing Lunch Area @ Great Hall (for Delegates ONLY)	
14:05 - 14:45	Session S5: Sustainable Estimating - Integrating Cost & Carbon Speaker: Alex Jones (Rapid DCS Ltd)	Session C12: "Accelerating Transformation - The People Side of Change" Speaker: Jeff Hopkins (Honeywell/CORA Systems)	Session P5: Delivering Large Scale Megaprojects in the Nuclear Industry Speaker: Katherine Grant (AWE)	Session I5: Combining people and machines - predictability, acceleration, risk and carbon. Speaker: Greg Lawton (Nodes & Links)
14:50 - 15:30	Session S6: How the early involvement of manufacturers can help Construction projects Speaker: Haitham Fayed (Hilti GB)	Session C13: How Weir Minerals is using Oracle Primavera Cloud to get their Project Controls to the next level. Speaker: Marijn van Essen (Primaned) & Daniel Zaklika (Weir Minerals)	Session P6: Hinkley Point C - Integrated Project Controls Speaker: Rod Whiting (Faithful + Gould) & Beth Campbell (EDF)	Session I6: Develop a holistic view of capital projects using location Speaker: Mario Sanvitale & Dan Culli (Locana)
15:35 - 16:05	Afternoon Coffee Break @ Great Hall			
16:10 - 16:50	Session S7: Integrating Industry 4.0 Technologies for Construction Management - A proof of concept study Speaker: Maged El Hawary (ASGC) & Marwan Abu Ebeid (Turner Construction International)	Session C14: Next stop, Oxford Station: How Kier uses AI to bid and build Speaker: Dan Hutchings (Kier Group Plc) & Dev Amratia (nPlan)	Session P7: Improving Megaproject Performance through Efficient Project Controls Speaker: Cameron Mills (North East Link Program)	Session I7: How is climate change increasing delays & exposure on construction projects? Speaker: Josh Graham (EHAB)
17:05 - 17:35	Panel Discussion and Audience Q&A @ The Atrium (Topic: How Project Controls can contribute to COP26 targets - what is the response from the industry and support from the government)			
17:45 - 18:15	Evening Social offering final opportunity to network with pint of beer, wine and soft drinks @ Great Hall (Open to ALL)			
18:15 - 19:30	Stadium Tour

ORACLE
Construction and
Engineering

Construction and Engineering

Connect project teams, empower decision makers, and synchronize across your supply chain with a truly intelligent platform. The Oracle Smart Construction Platform helps owners and their delivery teams work together, turn data into intelligence, and orchestrate resources for smooth project planning, delivery, and operations.

To find out more, visit: www.oracle.com/construction-and-engineering

Manage cost, scope and risk from capital portfolio planning to facilities management in one cohesive and flexible system.

Maintain control and visibility over projects to ensure they are operational on time and within budget.

Learn more at oracle.com/construction-engineering

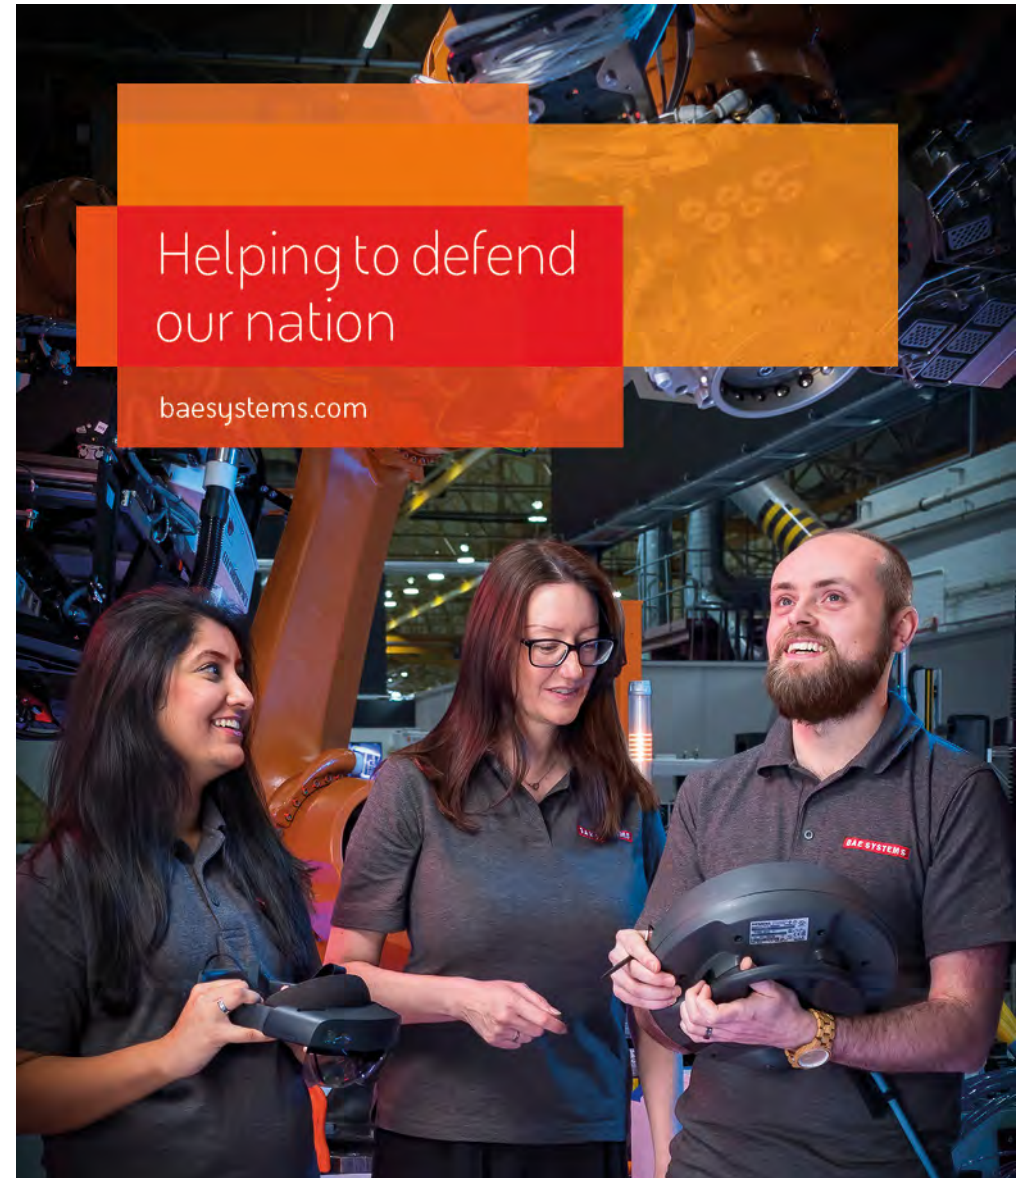

EXPO UK PLATINUM PARTNER

BAE SYSTEMS

At BAE Systems, we help our customers to stay a step ahead when protecting people and national security, critical infrastructure and vital information. We provide some of the world's most advanced, technology-led defence, aerospace and security solutions and employ a skilled workforce of 90,500 people in more than 40 countries.

From state of the art cyber threat detection to flight control systems that enable pilots to make better decisions, we never stop innovating to ensure that our customers maintain their advantage. This is a long-term commitment involving significant investments in skills. We also work closely with local partners to support economic development through the transfer of knowledge, skills and technology.

EXPO UK PLATINUM PARTNER

Laminar

CLEAR. CONTROLLED. DELIVERED.

Laminar

CLEAR. CONTROLLED. DELIVERED.

We are a construction consultancy/tech start-up hybrid with two missions: to fully digitise the construction industry and to create a new type of organisation that enables human flourishing.

We're all real construction people, driven to make an impact on the biggest, most significant projects across the buildings, railways, roads, renewables, nuclear, high-tech, pharma, utilities, airports, and defense sectors.

Our team brings control and clarity to construction projects by combining its extensive engineering know-how with the latest technology. We implement pragmatic solutions that work for everyone from the site operative up to the project board, using a mix of our own processes and a big dose of common sense.

CLEAR. CONTROLLED. DELIVERED.

EXPO UK PLATINUM PARTNER

Planisware

Set strategy. Execute with agility. Drive business forward.

Planisware is a global provider of software solutions for project portfolio management. Planisware solutions are specifically designed to support product development, engineering, and IT business processes.

For more than 20 years, Planisware has been helping its customers to achieve strategic and innovative excellence, make valid business decisions and increase portfolio value. Today, 800 companies worldwide rely on Planisware products to manage their projects, resources and portfolios.

For more than 20 years, Planisware has been helping its customers to achieve:

- Strategic and innovative excellence
- Make valid business decisions
- Increase portfolio value

Comprehensive, enterprise PPM to manage the life cycle of your organisation's projects, programs, and portfolios. Enterprise will guide you in best practice IT PPM principles.

Turnkey, collaborative PPM to unite teams and provide life cycle control over simple portfolios. Orchestra's simple and collaborative interface makes change management and onboarding quick and successful.

Do you want to streamline your IT portfolio? We'll show you how!

Web: <https://www.planisware.com/>

Email: info@planisware.com

Tel: 0161 240 9180

More than 800 customers and 40,000 users worldwide

All Planisware customers are forward-thinking organisations who reinvent processes and create new services, new products, and more, to effect positive change and grow.

Planisware is recognised as a Leader in the Gartner "Magic Quadrant for Adaptive Project Management and Reporting Tools."

The Gartner logo, consisting of the word "Gartner" in a bold, blue, sans-serif font with a registered trademark symbol.

EXPO UK GOLD+ PARTNER

ARES PRISM is enterprise project controls software that's fastest to deliver value. ARES PRISM's intuitive, easy to configure software is project-ready right out-of-the-box. A quarter-century of best practices, customer input and industry expertise is built into the software, enabling ARES PRISM customers to drive project performance throughout the project lifecycle.

Realise value *faster*.

ARES PRISM Enterprise is the best-in-class software solution with **over 25 years of best practices and industry knowledge** built in, enabling customers to drive project performance throughout the entire project lifecycle.

With capital projects increasing in size and scope, we help owners and contractors adopt stringent project cost and earned value management processes for **increased project transparency**.

Want to see just how fast we are?
Request a consultation on our website:

www.aresprism.com

The background of the right side of the slide is a long-exposure photograph of a city street at night. The street is illuminated by the lights of buildings and streetlights, creating a vibrant, colorful scene. The lights of moving vehicles are blurred into long, streaky lines of orange, yellow, and red, suggesting speed and motion. Overlaid on this image is the text 'ARES PRISM is Faster to Deliver' in a large, white, sans-serif font. The word 'is' is smaller and positioned between 'PRISM' and 'Faster to Deliver'. The phrase 'Faster to Deliver' is enclosed in an orange rectangular box with white arrows pointing to the right. The overall composition is dynamic and emphasizes the speed and efficiency of the software.

EXPO UK GOLD+ PARTNER

Your world of enterprise projects, in focus

Radically reduce costs and significantly increase revenue

Cora provides the power of predictability to plan and manage long-term projects, guaranteeing their successful delivery.

Cora is trusted by leading organizations such as Honeywell, Automated Logic, Boston Scientific and PwC with thousands of users in over 50 countries.

Our enterprise project and portfolio management solutions connect complex ecosystems, streamline processes and centralize data, providing the complete control, governance and insight required to track performance and protect margins, effortlessly.

Everything you do and make gets delivered on time and on budget, thanks to our seamless solution that manages the end-to-end lifecycle from bid to delivery, optimizing revenue and margins across project execution, through integration of schedules, forecasting, resourcing and financial controls.

Centralize your project data

Get immediate visibility into everything, wherever you are. It's all there on your dashboard.

Standardize processes

Integrate your business processes into a single, streamlined system, so all your data and documents are kept permanently up to date.

Eliminate any deviation

Get rid of those gaps between planned and actual costs and delivery, so you can be confident of continually maximizing your margins.

Configured for and by you

Highly flexible due to its no/low code configurability, easily adapting to your business needs.

Sync your supply chain

We make you the 'control tower', collecting and orchestrating the data that all your materials, resources, and assets generate.

cora
The Power of Predictability

Your world of enterprise projects, in focus
Radically reduce costs and significantly increase revenue

85% resource allocation a "slam-dunk"	55% reduction in forecast volatility	50% reduction in canceled projects
40% reduction in project deviation	10 hrs reporting reduced to seconds	1 Single source of truth

ECITB – Leading Industry Learning in Project Controls

Are you looking to develop in-house capability to ensure you have the skills and knowledge to effectively estimate, plan, schedule and control your projects? The ECITB supports companies to put in place the following framework to help train your workforce in essential project controls skills.

Ideal for upskilling your existing team, growing in-house talent and building capability from trainee to senior management. Integrating this framework, ECITB training, qualifications and apprenticeship standards into your in-house staff development provides a framework to nurture talent and a pathway for future growth – supporting you to attract and retain project control expertise.

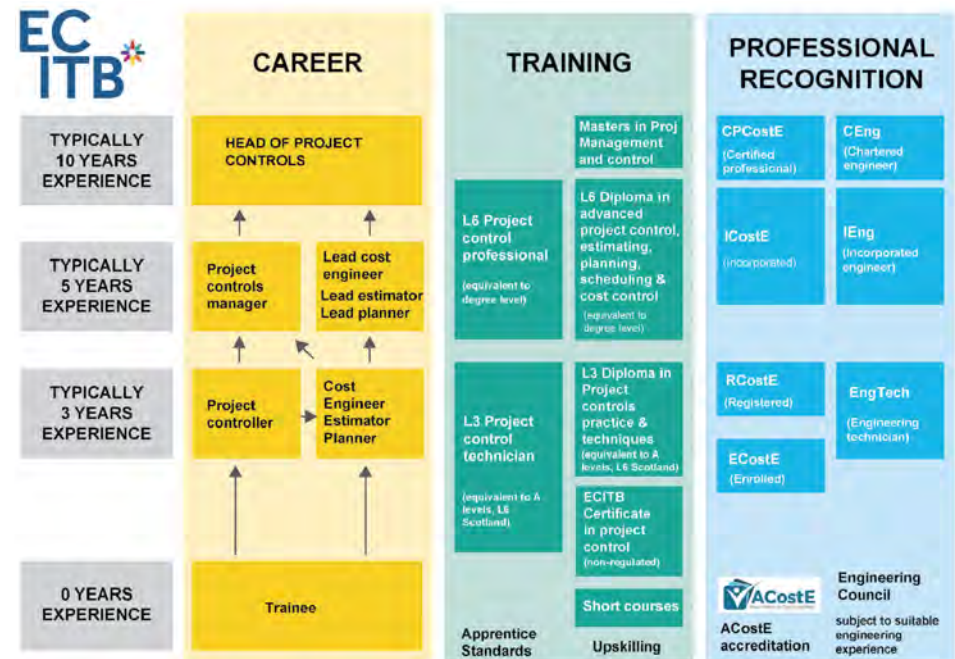

This includes the relevant technical expertise, alongside the vital requirement for our future project controls leaders to have an understanding of the wider context in which they operate, have excellent communication skills and the ability to apply their skills to governance, continuous improvement, data analytics and the drive towards carbon reduction and environmental sustainability.

About us

The Engineering Construction Industry Training Board (ECITB) is the employer-led skills body for the Engineering Construction Industry in Great Britain. A non-departmental public body sponsored by the Department for Education, the ECITB works with employers, government and professional bodies to attract, develop and qualify personnel across a wide range of craft, technical and managerial disciplines. Since 2020, the ECITB has invested £48 million on training within the engineering construction industry, including support for 3,716 new entrants.

Want to know more?

Visit www.ecitb.org.uk/projectcontrol

Career progression, training, upskilling and professional recognition

Develop competence, endorse credentials and enhance employability prospects.

If you are interested in putting in place the apprenticeship standards or a framework for project control training in your company, come and visit us at Stand 10 to discuss what is available and to find out about ECITB's approved training providers and assessors.
