HEXAGON | EcoSys™

Digital Disruption is Coming to Capital Projects

Leave the status quo behind and adopt an Enterprise Project Performance strategy with EcoSys

Real-Time Insights for Confident Portfolio Decisions and Project Delivery

EcoSys is project portfolio management, project controls and project management software all in one platform. Say goodbye to data siloes and slow, error-prone spreadsheets. Say hello to enterprise-wide visibility into what drives project success.

Efficiency, Predictability and Control

Integrate key processes throughout the full lifecycle of projects and portfolios, allowing you to:

- Prioritize the right projects for your organization
- Spend more time on high value work.
- Identify issues and forecast project outcomes early.
- Make confident decisions based on fast and accurate insights.

HEXAGON

The Business Case for Enterprise Project Performance

Drivers, Benefits, and Competitive Advantages of Pushing Beyond the Project Status Quo

How confident are you, really?

You're about to start the weekend. You've prepared for next week's big project review meeting. **And then the dreaded surprise email arrives** saying your project status really isn't what you thought it was. Can you update the reports in time? Can you support your numbers? How quickly can you course correct?

With **EcoSys Enterprise Project Performance** software, make decisions confidently with tailored insights from accurate, up-to-date data. **Gain efficiency, predictability, and control across your entire project lifecycle** – from crafting strategically-aligned project portfolios to analyzing automated, integrated cost reports.

So, how confident are you that your next project experience will be a good one? **See which path looks familiar at:**
